

## Elephant embroidery on Cuddle® Instructions

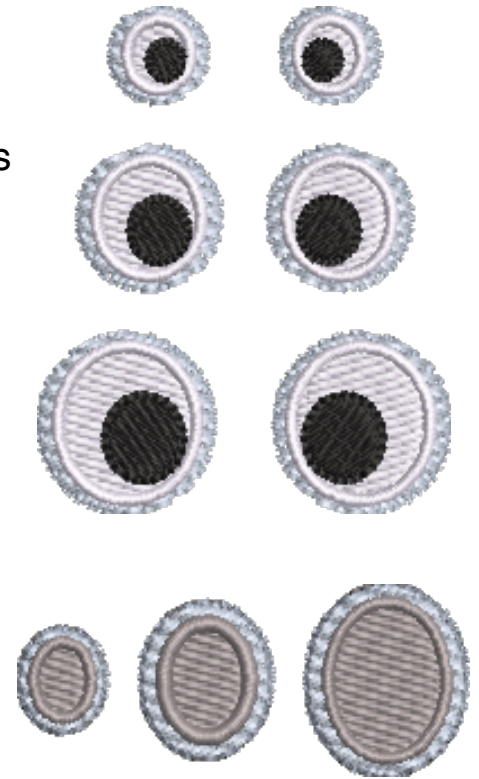

READ THRU THE INSTRUCTIONS IN THEIR ENTIRETY BEFORE BEGINNING THIS PROJECT.

Notes about the design.

- Design file includes three (3) different sizes of the eyes and noses: 10mm, 15mm, 20mm.
- There are right and left eyes in each size.
- The nostrils are the same for the right and left sides.

### SUPPLIES

- Cut away stabilizer
- Water Soluble Stabilizer (thin)
- Cuddle fabric
- 75/11 needle
- Medical paper tape or masking tape
- Embroidery Thread: white, black, and matching the fabric.

Please visit [www.creativeappliques.com](http://www.creativeappliques.com) for addition eye and nose designs.

**All sales are final**

## EYES: STITCHING THE DESIGN

1. Hoop cut away stabilizer.
2. Load design to machine: choose your eye size and left or right eye.
3. Stitch step 1 on the stabilizer: small circle.
4. Place material right side up aligning the circle marked on the fabric with the small stitched circle on the stabilizer. Tape down.
5. Place the Water Soluble Stabilizer on top of the fabric. Tape down.
6. Change thread color to match the fabric. Stitch step 2: knock down stitching that will hold down the fibers of the fabric.
7. Stitch step 3 in white thread.
8. Stitch step 4 in black thread.
9. Remove hoop from machine. Unhoop design.
10. Cut away the stabilizer.

## NOSE: STITCHING THE DESIGN

1. Hoop cut away stabilizer.
2. Load design to machine
3. Stitch step 1 on the stabilizer: oval.
4. Place material right side up aligning the oval inside the marked seam allowance on the fabric. Tape down.
5. Place the Water Soluble Stabilizer on top of the fabric. Tape down.
6. Change thread color to match the fabric. Stitch step 2: knock down stitching that will hold down the fibers of the fabric.
7. Stitch step 3 in a contrasting thread color.
8. Remove hoop from machine. Unhoop design.
9. Cut away the stabilizer.
