

Team Spirit Infinity Scarf

Approximate Finished Size: 10" x 35" (circumference)

Makes 5 scarves

Show your team spirit with these beautiful scarves. Choose your favorite school, find your Cuddle® colors, and whip up toasty scarves—for yourself and all your favorite students.

Fabric Requirements (as shown)

- 1 yard each of two school colors (*makes 5 scarves*)

Suggested Notions

- 90/14 stretch machine needle
- Polyester thread
- Felt tip marker and/or ballpoint pen
- Rotary cutter and mat
- Micro-serrated scissors
- Craft knife
- Hand-sewing needle
- Long, flower head pins and/or fabric clips
- Walking foot

Designed by Linda White for Shannon Fabrics.

Team Spirit Infinity Scarf

Team Spirit Infinity Scarf

Approximate Finished Size: 10" x 35" (circumference)

DIRECTIONS

Read *Cuddle® Basics* before beginning.

Right Side	Color 1	Color 2
Wrong Side	Color 1	Color 2

Cutting

1. Mark 5 (11" x 36") rectangles on the wrong side of both Cuddle® colors, parallel to the selvage.

2. Cut the Cuddle® along the lines.

Note: By cutting parallel to the selvage, you can make 5 scarves.

Assembly

1. With right sides facing, pair a strip of each color together. Double pin along both long edges.

Note: Have the naps running in the same direction.

2. Sew both edges, backstitching at the beginning and end of each seam.

3. Turn right side out keeping the seams on the edges.
4. Fold in half widthwise.
5. Rotate and twist at the open end.

Note: You've done this correctly if the center two layers are opposite colors and are right sides together.

6. With one hand, hold the center two layers together tightly.
Note: Remember, the center layers are right sides facing.
7. Continue to hold the center layers together with one hand. Slide your other hand down one side of the tube to the bottom. Grab and pull the tube until it is inside out.

Note: As you reach down, your hand will slide between the wrong side of the fabric.

8. When you have the tube inside out, check that it looks like this:
9. With the tube inside out, pin the cut edges together, perpendicular to the opening. Mark a 3" gap for turning.

Note: If your machine has free arm capabilities, using it will make the next step easier.

10. Staystitch between the 3" marks on the corresponding sides.

Note: The staystitches provide a base for stitching the gap closed.

11. Sew around the circle, leaving the 3" gap open. Sew an L-Pivot at the gap ends.

Note: The L-Pivot secures the seam ends when the scarf is turned right side out. It also helps the seam allowance turn in for hand sewing.

Finishing

1. Pull the entire scarf right side out through the gap. You now have a scarf with a Möbius twist.
2. Pin the turning gap closed. Hand sew using a ladder stitch.

Ladder stitch: Using polyester thread and a hand-sewing needle, catch one side of the opening, then the other. Pull to tighten every few stitches.

• Cuddle® Basics

1. Seam allowances are 1/2" unless otherwise noted.
2. Mark measurements on reverse side of Cuddle® with a felt tip marker or ballpoint pen.
3. Cut with a rotary cutter, craft knife, or scissors.
4. Shake cut pieces or put in a no-heat dryer with a damp washcloth for a few minutes to remove loose fibers.
5. Sew with polyester thread in the top and the bobbin.
6. Reduce presser foot pressure when sewing multiple layers.
7. Increase stitch length to 3–4 mm.
8. Double pin by using 2 rows of pins—the first row every 1 1/2" along the seam line and a second row 1" to the left and parallel to the cut edge.
9. Backstitch at the beginning and end of each seam.
10. Use an even-feed or walking foot, if possible. It makes a difference!
