10 Tips for Sewing with Cuddle®

Sewing with Cuddle® is a dream when you have the right tools and tips.
Here's how to make the most of this magical fabric:

1. **Marking Made Easy:**

Use a water-soluble felt-tip pen to mark the wrong side before cutting.

2. **Cut with Care:**

Use a rotary cutter for C3, Dimple, Cloud, and prints, or micro-serrated scissors/craft knife for Luxe Cuddle®.

3. **Banish the Dust:**

Vacuum the cut edges before sewing to keep your space tidy.

4. **Double-Pinning is Key:**

Secure your fabric with double pins for added stability as you sew.

5. **Adjust Your Machine Settings:**

Lengthen your stitch and lower the presser foot pressure for flawless seams.

6. **Choose the Right Needle:**

A 90/14 Stretch needle works wonders on Cuddle®.

7. **Use a Walking Foot:**

It keeps the fabric moving evenly through your machine.

8. **Thread Matters:**

Stick with strong polyester thread for durability.

9. **Basting Spray Saves the Day:**

Smooth out wrinkles and hold fabrics in place with ODIF 505 basting spray.

10. **Caring for Cuddle®:**

Wash without fabric softeners and line dry or dry on low heat to maintain that irresistibly soft texture.
