SILLY CUDDLE® MONSTER PILLOW

designed by Gayle Camargo for Shannon Fabrics

Silly Cuddle® Monster Pillow

Use the boxes to check off the steps as you go. For all Applique pieces, use a zig-zag or blanket stitch set at a 2.25 stitch length. For regular pieces and stitching, use a straight stitch set at a 3.0 stitch length. Seam allowances are stated in specific steps.

Instructions:

- ☐ 1. Trim a 2" x 40" strip off the main fabric. Cut out paper pattern pieces. Trace pattern pieces onto the wrong side of fabric. Cut out all except for the horns and tongue.
- ☐ 2. For the eyes:
Applique eye balls to the whites of the eyes. Applique the finished eyes to the face front (following pattern placement). Be sure the nap on all your pieces is going down towards the bottom of the face.
- ☐ 3. For the teeth:
Applique the teeth to the face using the pattern placement.
- ☐ 4. For the tongue and horns:
Trace around pattern pieces onto fabric that has been folded right sides together. Sew along the trace line leaving the bottom seam open for turning. Cut out pieces leaving about 1/4 - 3/8" seam allowance. Turn right side out. Stitch down the middle of the tongue to create detail, backstitching at each end of the stitch line. Stitch to the face following pattern placement. Set horns aside.
- ☐ 5. For the mouth:
Trace around the pattern piece with the fabric right sides together and the nap pointing towards the bottom of the mouth piece. Pin the pieces together on the inside of the trace line. Cut out the pieces while still right sides together. Sew along the bottom curved edge. Clip the curve and turn right side out. Match raw edges at the top edge and sew a 1 1/2" x 14" strip of navy to the top of the mouth with a 1/2" seam allowance.
- ☐ (5 continued) Fold to the back side and "stitch in the ditch" from the front of the mouth to secure it. (The navy strip will be longer on the inside of the mouth and will be easy to catch in the stitch.) Trim the navy piece about 1/2" on either side of the mouth. Use the pattern placement and pin to the face piece. Applique the mouth piece to the face piece, being sure to tuck the leftover navy trim to the inside of the mouth before securing it down.
- ☐ 6. Zig-zag stitch a batting piece to the wrong side of the face piece around the edge. Do the same to the wrong side of the head back piece.
- ☐ 7. On the face piece, with the batting now basted in place on the edges, stitch in the ditch around the bottom of the mouth piece, whites of the eyes, and teeth.
- ☐ 8. Sew the 2" x 40" orange strip to face using a 1/2" seam allowance and the nap going away from the face. Place the beginning of the strip towards the bottom of the face so the seam will be hidden when pillow is placed on a bed or chair. Start the seam about 2-3 inches from the end of the strip. When approaching the beginning seam, leave about 2-3 inches from the end so that you can trim and sew the strip closed. Overlap the strip by 1 inch and trim. Use a 1/2" seam allowance to sew the strip ends right sides together. Now finish the seam.
- ☐ 9. Sew head back to strip leaving a space open between the asterisk symbols for turning and stuffing.
- ☐ 10. Turn, stuff, and hand stitch the opening closed with a ladder stitch.
- ☐ 11. Stuff the horn pieces. Tuck under raw edges 3/8" - 1/2" and handstitch to the head using the pattern placement.
